## "Zdravo Trogir!"

*Freshness of a crystal transparent sea.  
Murmuring sounds of the sea in the morning.  
Shriek of a seagull.  
Twitter of a bird.  
Rooster telling you dawn has risen.  
Narrow lanes of Dalmatian towns.  
Unceasing rhythms of restless crickets in the pine woods.*

**Croatia**, a homeland whose abundant beauty reflects the richness of tradition and culture.

We drive north along the coast from Makarska. A stop in Split, city of exceptional grace, culture and history. Early-evening arrival in Trogir—an island town, sometimes referred to as Venice in miniature.

**Villa Jadran**, by the sea, on the island of Ciovo—a 20-minute walk to the center of Trogir. Owner Milan Bilic makes you feel at home. Our room which can accommodate 4 people is EU50 per night. Each of his six comfortable studio apartments and seven rooms has its own terrace or balcony with a view of the sea and the antiquities of Trogir—as described in UNESCO's World Heritage List.

Dinner was being served to guests with confirmed reservations. Wonderful, appetizing food graced every table. But even without reservations, Toni, their superb Sicilian chef was able to fix us a wonderful fish dinner.

This man is a dynamo! Toni drives his scooter into town everyday for fresh fish, seafood, and vegetables. He cooks and seasons everything to perfection. He serves all dinner courses as well as pours the wine he suggests.

This multi-talented chef from Sicily can even help you with Internet/computer problems.

We ordered dinner from Toni for the following evening. "Dorada" (Grouper?) Did we like it? Was it good? "It was a Feast!"

Few can decide the color of the Jadran Sea. Sometimes dark blue, sometimes greenish blue. It constantly shines forth in a thousand hues depending on the time of day and the angle of the sun. Yet, it is always beautiful. Unique.

Walk along the road by the Jadran Sea. Cross the bridge to the island of Trogir. Enter by the South Town Gate, standing since the 16<sup>th</sup> century.

Statues, fortresses, palaces, churches, Roman pavements and walls. All glisten in their astonishing and eternal beauty.

Trogir was established at the end of 2<sup>nd</sup> century B.C. by Greeks, Romans, and Illyrians. In the 7<sup>th</sup> century the Croats developed this municipality into one of the most beautiful towns on the Adriatic coast.

A treasury of art—an open air museum! Ancient Greek and Roman fragments, some with inscriptions, along with early Croatian art all compete for your attention. Stand enraptured and admire Gothic and Renaissance masterpieces. Feel the coolness of sturdy walls and bastions, the lush beauty of the cathedral, the mystique of the ancient winding streets.

Harmony of color and form in paintings, miniatures, and carvings. In quiet museums, old libraries and amidst stone monuments. Trace man's creativity in a climate where the sun, sea, stone and nature have defined Croatian life. Delight your palate and your soul!

Our friend meets us that afternoon on the other side of Ciovo. Nikola Radic built a beautiful new apartment building on a hillside overlooking the Jadran Sea. Two of his 2-bedroom apartments are impeccably

furnished and fully equipped. The rest are being worked on. Peace and serenity just 25 minutes from Split airport. Call Nikola and rent your vacation accommodations in a beautiful paradise. Phone (mobil) 385-098-1699-567, (land) 385-098-886-617.

Croatian hospitality! Nikola invites us to stay the night. He leaves to buy food while we enjoy the ambiance of his lovely accommodations. Bread, cheese, vegetables and superb home-made wine. The wine is made by Nikola's brother. We go later to his brother's for "**coffee**" and partake of Ivor's and Anica's generous hospitality.

Grapes, Figs, Olives, Lemons, Oranges, Walnuts, Tomatoes, Herbs. The Rooster stands potentate over his harem of hens. Fresh eggs every morning.

Their in-home winery produces wines and liquors only for the Family—their wines are not available in stores. The 4-year old white wine is Bjelo Vino—an excellent wine blended from a number of grape varieties. They produce typical Croatian wines—Babic, Dingac, Playac as well as Prosek (a liqueur).

We talk long into the night and learn so much. A tourist from Moravia staying next door brings a bottle of Travarica to share—an herb liquor produced from over 25 herbs. Wonderful cultural exchange.

Nikola's sister owns a unique business—**Fish Picnic**. We are invited to her traditional Croatian Fish Picnic, which happens every Friday. Awaken early? No problem! The rooster tells us—dawn has risen. It is time to awake. Let's go to the Fish Picnic.

Drive to **Filip's Marina** early. Coffee with the Captain and deck-hands. We board. Is this only for us? No. A few minutes later approximately 50 other picnic-ers waiting dockside in front of the Medena Hotel join us. We cruise past many beautiful islands. Drinks and cookies are served on board.

A shore visit on Drvenik Veliki—a picturesque island also served by Jadrolinija Ferry Line from Split. Walk

around and explore. Nikola has a friend on this island—but has never been there to see him. His friend was not at home. Take some pictures and leave him a note.

Re-embark on the "Filip." Cruise past more beautiful islands. Arrive at "Rat" cove on Ciovo Island. Walk the plank to the rich lunch awaiting us—mackerel, salad, bread, juice, wine, and watermelon. "All you can eat." After lunch it's the sunny beach, a refreshing swim or a nature walk in the woods.

Cost of this "Fish Picnic" experience is EU22/adults, children age 6–12/half price, children 5 and under/free. If you don't like fish, you can special order meat—a variety of meats are served at EU33/adults. For reservations call—385 (21) 881-910 or 385 (91) 519-0053.

Wonderful day! We say our goodbyes...and depart. Flicker of moonlight on calm sea—follow the Jadran to Zadar...

**Bonaire—"The Natural Choice"**

## General Information

**Bonaire** is the eastern-most island of the ABCs—Aruba, Bonaire and Curaçao—and is located about 40 miles north of the Venezuelan coast, less than a 3-hour jet ride away from Miami. Bonaire is **outside** the hurricane belt, but can feel the effects of large hurricanes. Why is Bonaire a world-class dive destination?

- **Over 60 dive sites around Bonaire and over 26 around Klein Bonaire** with wrecks, reefs, walls, shore dives and a protected underwater park (since 1979).
- All dive sites are marked by **mooring buoys**. Some sites are retired for several years in order to remain healthy.
- **The visibility** often reaches 130 feet and averages 60–100 feet.
- **Abundance of sea life** of every size and color imaginable! Over 500 species of colorful tropical fish and over 120 types of coral—all living within a protected marine environment.

Clear, warm water, and the abundance of a great variety of sea life surrounding Bonaire, much of which can be experienced by shore diving, makes for a spectacular, dynamic, marine drama constantly changing shape, motion, color and texture.

**Diving!**—From the newly-certified to the experienced olde-pro underwater photographers, Bonaire offers a very safe, pristine underwater environment. Shore

diving is very easy. Generally after entering the water, a relatively short swim along the surface, descend near the top of a wall or mooring buoy, multilevel up the wall, towards shore—much to see and experience!

Most dive sites are within a 15–20 minute boat ride away, or easily reachable as a shore dive. Most of the dive operators use the large social boats, making for more comfort all around—shade, drinking water, room to spread out, relax, play "one-up-man-ship" about the biggest fish you ever saw and other spectacular dive adventures you ever had, while you assemble your gear.

**Weather & Water**—Year round air temperature averages—82 deg.F. Water temperature ranges between 78 deg.F. to 82 deg.F. Visibility runs between 60 to 130+ feet, and is usually around 100 feet.

**Price Validity**—All Package Prices are subject to change without notice, unless Paid-In-Full. Changes may be required in the event of increases or decreases in the cost of services imposed by hotels, dive operators, air carriers (if included in package), or other contractors. Government taxes can change at any time.

**Air Fare**—We provide the lowest air fare from your City of Departure.

## Dive Sites

The Marine Park extends all the way around Bonaire, from the high water mark to approximately 200fsw. Bonaire's narrow, fringing coral reefs encircle both Bonaire and Klein Bonaire. Recent survey by REEF has shown that Bonaire's fish population is the most diverse in the Caribbean and ranks among the best in the world..

There are four distinct zones, three of which are easily visited by snorkelers and about 80% of Bonaire's sea life is found here.

- **The Elkhorn Zone**— Named for the large, dominant coral formations, this is the area closest to shore. These giant, branching corals (many measure more than ten feet across) are found in just a few feet of water, and provide a home for thousands of fish and other marine life.
- **The Coral Terraces**— About 8–10 fsw, the Elkhorn Corals are replaced by a combination of other corals. There are three types of terraces—Sandy, Patch (Brain and Staghorn corals), and Coral. **Sandy Terraces** are mostly sand with an occasional coral, and the Sand Diver, Peacock Flounder, tangs, parrot fish, damsel fish, butterfly fish, angels, grunts, coneys, rock hinds, goatfish, hogfish, wrasse, lizard fish, scorpionfish, and more! are found here. **Patch Terraces** are a mixture of sand and two main corals—Brain and Staghorn. **Coral Terraces** are found off northern Bonaire and Klein Bonaire—these corals are densely packed.
- **The Reef Crest**— In about 25–30 fsw, the coral dominates, with much action above the reef—schools of fish feeding of plankton, and others such as jacks which feed on these schools of smaller fish. Corals are of great variety—star coral taking shape in pagodas, pillars, mounds and even sloping, overlapping like shingles; and many varieties of soft coral and sponges. Sergeant Majors, grouper, parrotfish, snapper, shoaling chromis, jacks, tarpon, turtle, seahorses, frogfish, nurse shark, whale shark, rays and dolphin also frequent this area.
- **The Reef Drop-Off**— 30 fsw and below is where most scuba divers visit to see deeper creatures. Leaf Coral and Black Coral adorn this area which slopes down...and...down!

**NOTE:** Before you pay your \$10 annual Park Fee, you will go through about a half-hour presentation/orientation about the Park and dive sites, as well as the park Rules. It is a very informative presentation and well worth the time to absorb as much as possible. One of the best pieces of information we came away with was a comprehensive map of the island and the divesites. There are so many sites, that when you plan your day of shore diving, it is best to ask more about each site. With a rental car and buddy the majority of the sites are easily accessible from shore. Save your boat trips for Klein Bonaire and sites not easily accessible from shore—roughly six sites are boat only.

## Dive Adventures with Plaza Resort and Toucan Diving

**High Season and Low Season**—High season generally begins mid-December and ends mid-April. Higher rates are found during High Season and some holidays.

**Plaza Resort Bonaire and Toucan Divers**—(Low season rates around \$1017 diver, \$778 non-diver)—Adventure per person, double occupancy includes: 7 Nights Accommodations (Junior Suite) - 12 boat dives(2-tank morning trips) - unlimited shore diving - weights/tanks/air/belt - r/t airport transfers - all service charges and taxes on room and diving. Note that other dive package options include only one boat trip per day with unlimited shore diving, or unlimited shore diving only.

Plaza Resort Bonaire, a stunning 5-Star property, is located a few minutes from the airport, just a little south of Kralendijk, Bonaire's capitol. Sprawled over 12 acres of pristine coastline, its 200 airy suites and villas are either lagoon side or seaside and, set amidst tropical gardens. While it is always fun exploring Bonaire, especially in a rental car, the Plaza offers every amenity one might find elsewhere on-island—cable TV, A/C, telephone, safe, mini-fridge or in the fully-equipped kitchens, refrigerator, oven, dishwasher and microwave, white sandy beach, pool, poolside restaurant/bar, several restaurants and more bars, watersports, tennis, fitness room and "day

spa"... **"Beverly Bio Aesthetics"**, casino, games for kids, and much more...

Toucan Divers is a PADI, NAUI and IDD dive center, located on the premises of the Plaza Resort Bonaire. Three Island Hopper dive boats never carry more than 14 divers per boat and their schedule is flexible throughout the day. For shorediving needs, divers can drive right up and load fresh tanks. Boats, shop, fill station and storage all located together—very convenient. They also provide guided shore diving on the east, windward, side (weather providing) as well as the sites located within **Slagbaai— Washington National Park**.
